Product information

Line coupler in a compact design. It connects two KNX bus segments via twisted pair, for example a KNX line with a KNX area

The device has an extended filter table for main group 0…31 and ensures a galvanic isolation between the lines

The coupler supports KNX longframes and is compatible with the ETS® software (ETS4.2 or higher)

The buttons on the front panel allow disabling the telegram filter for testing purposes

The LEDs indicate operating conditions as well as communication errors on the KNX bus
