## **Product information**

DIN-rail DALI relay module with 1 switching channel

High-output and potential-free contact for loads with high inrush current

Integrated application controller with different operating

Operating modes: Standard, Cut-off, HVAC, Impulse, Alarm

Full range of functions can only be activated with other products of the product group B.E.G. LUXOMAT®net DALI-LINK

This article is a component of a lighting control system from B.E.G., which supports the use of DALI control gear (luminaires, relays) from other manufacturers

The product can be used across manufacturers in accordance with the given DALI-2 product properties

Additional system components (hardware) are available from B.E.G.

Additional free software is available from B.E.G.
