DALI-2 interface for controlling digital dimmable ECGs in broadcast mode

DALI-2 certified product

Integrated temperature monitoring and short-circuit detection

Bright LED indication for commissioning

External telescopic light sensor for a mounting height between 5 and 16 m (mechanically adjustable) for measuring the light according to the application.

Mixed light measurement with external light sensor

Adjustment of the reflection factor and input of the luminosity for the display of the actual luminosity in the app

Extension of the detection area with additional B.E.G. Casambi devices possible

Individual adaption of detection sensitivity for each PIR sensor

Detection area can be restricted with blinds

There are markings to ensure correct alignment during installation

When used in high-bay warehouses, care should be taken that, in the cross-aisles of the warehouse, detectors are installed that can detect movement only in the desired aisle locations, by using blinds or other technical arrangements.

Manual switching and dimming via push button possible

Functions adjustable via Casambi app
