KNX actuators

For an economical and intelligent building automation

B.E.G. is known for high-quality detectors and sensors. However, our KNX product portfolio also consists of a variety of DIN rail mounted devices (REG), flushmounted devices and wall-mounted devices.

Overview of the most important fact:

- Every KNX system requires various system devices, to create the basic topology.
- Actuators in a wide variety of designs versions bring the control requirements into the system.
- External control signals can also be processed input modules bring the binary signals into the signals into the KNX.
- Wall-mounted devices enable convenient operation and operation and control of the systems.
- Professional visualisation enables individual operation and the output of all available values and system system statuses, whether on a PC, tablet or smartphone.

Outstanding features of the B.E.G. KNX actuators:

- Extensive product range with many special functions
- Modular devices for the realisation of many applications
- Control of DALI components via KNX-DALI gateway
- Visualisation with the KNX ViSTATION
- Large selection of devices with KNX Data Security

B.E.G. KNX devices

WALL-MOUNTED DEVICES

MODULAR UNITS

93335
ViSTATION
Visualisation and remote server
Visualisation

93224
SA4-230/16/H/KNXs REG
4 switching outputs
Switch actuator

93228
SA8-230/16/H/KNXs REG
8 switching outputs
Switch actuator

93328
SA12-230/16/H/KNXs REG
12 switching outputs
Switch actuator

90225
UAD1-230/KNXs REG
1 channel universal
Dimming actuator

93930
SBA4-230/10/H/KNX REG
4 channel switching output
Blind actuator

90215
PSN-230/1280/30/KNX REG
Power supply
System device

90214
PSN-230/640/30/KNX REG
Power supply
System device

93338
DA64-230/KNX REG DALI-2
1 DALI line Addressing mode
DALI gateway

90410
LK-TP/KNXs REG
TP line coupler
System device

90403
LK-IP/KNXs REG
IP router
System device

90404
LAN-IF/KNXs REG
LAN Programming interface
System device

90408
USB-C-IF/KNX REG
USB Programming interface
System device

90411
BIA4-KNXs REG
4 inputs passive
Binary inputs

90412
BIP4-KNXs REG
4 inputs passive
Binary inputs

93365
PBM-KNX-DX-4W
4 channel input/output
Push-button interface

93172
PB2-KNX-ST
2-fold push-button
Push-button

93174
PB4-KNX-ST
4-fold push-button
Push-button

93176
PB6-KNX-ST
6-fold push-button
Push-button

93178
PB8-KNX-ST
8-fold push-button
Push-button

93806
WS-VOC-HVAC-KNX
Temperature /Airflow controller
Controller/multi-sensor
